FI-PPP

State-of-Play and the 'final phase'
Objective

1. Make European industry and software developers more competitive in developing and using innovative Internet technologies and systems.

2. Strengthen Internet-enhanced innovative services and applications of public and social relevance, notably in urban areas

More intelligent, more efficient, more sustainable!
Phase 2
Use case trial sites
Phase 3

Quick Facts:
→ Call Closure 10 December 2013
→ € 100 million for SMEs & web entrepreneurs
→ € 30 million for sustainability and take-up
Objective

• **Wide take-up** of FI-PPP results by SMEs and web-entrepreneurs - use of the Generic and Specific Enablers developed in FI-WARE and the trials.

• **Develop services and applications** making use of innovative infrastructures, big data, Internet of Things, etc.

• **Long-term success of the FI-PPP**

... for details see the FI-PPP work-programme 2013
FI-PPP Call 3

The basic idea

- Focus on actors who can access and leverage existing SME and web entrepreneurs ecosystems
- Attract small actors to build services and applications, e.g. SMEs, web entrepreneurs, university teams, start-ups, ‘geeks’, whoever...

- Ensure sustainability, e.g. by embedding in regional fabric
- Connect with on-going regional initiatives, e.g. SME, web entrepreneurs, education, innovation

Services and applications in a wide range of Internet usage areas, large scale trials and take-up
The basic idea
Expansion of Use Cases (Objective 1.8)

Target Outcomes

- Innovative services and applications in a wide range of Internet usage areas
- Validating the concepts and technologies (generic and specific enablers) developed under the previous phases of the FI-PPP
- Make (public) service infrastructures and business processes smarter, exploit open data

Implementation requirements

- Connection to existing communities of innovative ICT users and developers
- Able to bring together partners providing full ecosystem to involve SMEs and web-entrepreneurs
- Financial viability of the lead partners
- Expertise and capacity in running full life-cycle of open calls
Expansion of Use Cases (Objective 1.8)

Project tasks

- Organise open calls for SMEs and web entrepreneurs to develop innovative services/applications
- Liaise with other projects and support for SMEs and web entrepreneurs to get them up to speed
- Coordinate and collaborate with programme support actions

Other conditions

- At least 80% project budget for open calls
- Wide dissemination and promotion of open calls
- Adhere to FP7 guidelines in terms of evaluation, conflict of interest and confidentiality
- Indicative contribution to open call selected winners is in the order of EUR 50,000-150,000

Possible actors

- Accelerators
- Company managed funds
- ICT infrastructure providers
- Public sector
- Regional Development Agencies
- Sectorial ecosystems
- SME associations
- Others?

By sector

By company ecosystem

By regional dimension

By … ??
Possible implementation scenario - I

Key Characteristics:
- 3 lead partners = 3 pilot expansions
- 3 countries
- SMEs/Web entrepreneurs participate via sub-granting mechanism (new!)
- Reaches around 3 x 30 SMEs or web-entrepreneurs
- Budget could be around € 10 million for this scenario
Possible implementation scenario - II

Key Characteristics:
- 1 lead partners = 1 pilot expansions
- 2 partners in other counties
- SMEs/Web Entrepreneurs participate via sub-granting mechanism (new!)
- Reaches around 40-50 SMEs or web-entrepreneurs
- Budget could be around €5 million for this scenario
However, any other model is good as well, as long as it satisfies the conditions set out in the work programme, notably:

- 3 countries (EU + FP7 associated countries)
- 3 independent partners
- Minimum of 80% of the budget goes to SMEs and web-entrepreneurs and more generally what is specified under objective 1.8 in the work programme (http://cordis.europa.eu/fp7/ict/docs/ict-wp2013-10-7-2013-with-cover-issn.pdf)
Specifically Applicable Special Clauses:

Participants in all actions resulting from this call are required to conclude a consortium agreement.

- Special Clause 41 'Complementary Grant Agreements' and,
- Special clause 42 'Financial Support given by Beneficiaries to third Parties' and the provisions therein will be applicable to all projects selected under this call.

In view of the implementation of Special Clause 42, the proposal shall include the following elements:

- a fixed and exhaustive list of the different types of activities for which a third party may receive financial support,
- the definition of the persons or categories of persons which may receive financial support,
- the criteria for awarding financial support,
- the maximum amount to be granted to each third party and the criteria for determining it.
Technology Foundation Extension and Usage (Objective 1.9)

*One Integrated Project which covers:*

Technology Foundation Extension

- **Updates, improvements existing Generic Enablers, and development of new Generic Enablers**

Platform availability

- Domain-specific adaptation of Generic Enablers
- Open source Generic Enablers reference implementation
- Test infrastructure for Generic Enablers
- Training of Objective 1.8 SMEs and web-entrepreneurs

Platform sustainability

- Ensure sustainability of Generic Enablers beyond FI-PPP
- Exploitation planning, standardisation, interoperability, IPR arrangements
Technology Foundation Extension and Usage (Objective 1.9)

Several Coordination and Support Actions which cover:

- Support for SMEs and web-entrepreneurs across the programme
- Evidence of socio-economic impact of FI-PPP until 2020
- Support for dissemination and exploitation
- Support Internet innovation hubs (In collaboration with on-going work of the EIT ICT Labs)
- Support linking research to innovation, knowledge transfer, international collaboration, including organising conferences and workshops

Obj 1.9 Instruments: 1 IP for points a-c, 2-5 CSAs for point d
Budget IP: 23 M€, at least 10% flexible
Budget CSAs: 7 M€
Duration: 18-24 months

FI Call 3 Total budget Objective 1.9: 30 M€
FI-PPP Call 3
What are we looking for - and what not?

- Team players, become part of the on-going FI-PPP Programme
  - Making use of knowledge generated by previous phases
  - Programme Agreement
  - Special Clause 41 + 42
- 1.8: Intermediaries with access to an existing community/ecosystem
  - See implementation requirements & project tasks
- 1.8: High-quality intermediary and high-quality community
- 1.9 a-c: Technology- and IPR-oriented follow-up from FI-WARE
- 1.9 d: Ability to provide immediate and first-class support Europe-wide
- Stand-alone projects, not part of the programme
- 1.8: Unclear open calls and “rules of the game” or calls for "family and friends"
- 1.8: No clear existing SME or web-entrepreneur community
- 1.9 a-c: Lack of adequate continuation within the programme
- 1.9 a-c: Insufficient contribution or commitment
- 1.9 d: Lacking experience, knowledge, support capacity and commitment for the programme
Opportunities for Others!

- **Open Calls** by the 5 large scale trials. Each has a budget of about € 1.35 million reserved for adding new partners (summer 2013)

- **XIFI**: Open Call for additional infrastructures (summer 2013)

- **Open Innovation Lab** is the testbed hosting the innovative FI-PPP technologies accessible to anyone (summer 2013)

- **Phase 3** will expand the innovative technologies to SMEs and web-entrepreneurs to create innovative services and applications.
