

FIA Stockholm

Session I.2:

“Approaches for e-Identity provisioning in the Future Internet”
(**name change as agreed at 7th October 2009 preparation workshop)**

23rd November 2009

**Way forward and Wrap Up
Jim Clarke, Waterford Institute of Technology, IRELAND**

“How do we make FIA work better for us all?”

- Some Suggestions
- Less formal sessions in between (?)
- From Caretakers perspective, 7 Oct. 09 prep workshop helped!
- More cross domain interactions
- Give more people their say (not just caretakers)
- Follow up required eg. Collaborate on position papers even if controversial (prefer this against pure counter-papers as it isn't just up to the Caretakers to review/decide!)
- Others to be discussed in session.....
- Provide more information about FIA, expectations and goals
- To FIA signatory project communities
- To External communities ??
- Others to be discussed in session.....

Topics for FIA Valencia

- eID Provisioning
- FIA rule: No Problem statement = No session
- Is there still a problem statement wrt eID provisioning?
(Answer: *more than likely but to be decided in session*)
- Some important questions: Have we achieved
 - some convergence of the approaches?
 - Some consistency of the approaches?
 - Started to identified the issues associated with the approaches,
 - Identified some synergies of the approaches
 - Enough cross domain interactions (Answer: *probably not, but a good start with T&I and MANA*)
- If answer to above reflects there is still a worthwhile problem to explore together,
 - Are people willing to bring this forward to FIA Valencia?
 - Further position papers
 - Workshop(s)?

What will happen next

FIA Stockholm	FIA Valencia	FIA
eID Provisioning 1.5 hrs	TBD	TBD
How to measure Trust 1.5 hrs	TBD	TBD
TI Plenary 1.5 hrs	TI Plenary	TI Plenary

What will happen next

FIA Stockholm	FIA Valencia	FIA
eID Provisioning 1.5 hrs	TBD	TBD
How to measure Trust 1.5 hrs	TBD	TBD
TI Plenary 1.5 hrs	TI Plenary	TI Plenary

What will happen next

FIA Stockholm	FIA Valencia	FIA
eID Provisioning 1.5 hrs	TBD	TBD
How to measure Trust 1.5 hrs	TBD	TBD
TI Plenary 1.5 hrs	TI Plenary	TI Plenary

Diagram illustrating the agenda for the Future Internet Assembly (FIA) sessions across three locations: Stockholm, Valencia, and an unspecified location (FIA). The sessions are organized into three rows, each with a duration of 1.5 hours. The first row includes eID Provisioning (Stockholm), TBD (Valencia), and TBD (FIA). The second row includes How to measure Trust (Stockholm), TBD (Valencia), and TBD (FIA). The third row includes TI Plenary (Stockholm), TI Plenary (Valencia), and TI Plenary (FIA). Arrows indicate dependencies: a vertical arrow points from 'How to measure Trust' to 'TI Plenary' in Stockholm; diagonal arrows point from 'TI Plenary' in Stockholm to 'TBD' in Valencia and 'TBD' in FIA; and another diagonal arrow points from 'TI Plenary' in Valencia to 'TBD' in FIA
